

SCHMEISSER

COLLAPSIBLE BUTTSTOCK

Features a “no rattle” mechanism that reduces noisy play between the buffer tube and buttstock for a strong hold when you put your rifle to your shoulder.

Slightly extended hand lever allows fast length-of-pull adjustments, even with gloves. Fiber reinforced polymer construction provides maximum durability in the most demanding environments.

Accepts a variety of ambidextrous accessories and quick disconnect sling swivels. Removable synthetic rubber anti-slip butt pad for optimized handling. Fits all commercial AR rifles.
