

SCHMEISSER

M-Series/AR-Series Rifle NOREC® Compensator

The Schmeisser NOREC® Compensator, with its vertical ports and 45 degree holes, is designed to decrease recoil and muzzle climb. Achieve a faster and more accurate shooting experience either in semi- or full-auto.

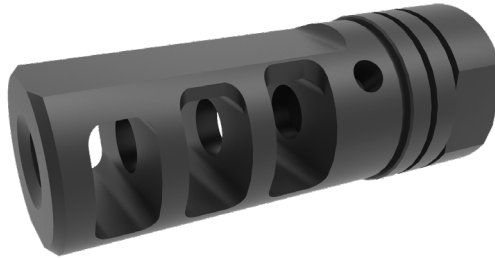

Machined from ultra-hard German steel, the Schmeisser NOREC® compensator can deliver outstanding recoil reduction and is virtually impervious to heat, corrosion and wear. Can be mounted with AR/M-series rifle tools.

GTIN

4251366500284
