

SCHMEISSER

M-Series/AR-Series Rifle Ambidextrous Charging Handle

Robust, one-piece ambidextrous charging handle lever without cogs for an absolute hassle-free operation even in the harshest environments. Ambidextrous drop-in charging handle lets you charge the rifle equipped with the large optics from either side of the receiver.

Left side is extended for simple and fast handling with gloves, while the right side is designed snag-free for easy ambidextrous operation. Rounded edges guarantee safe and flawless handling.
